

Partner program

What this is about

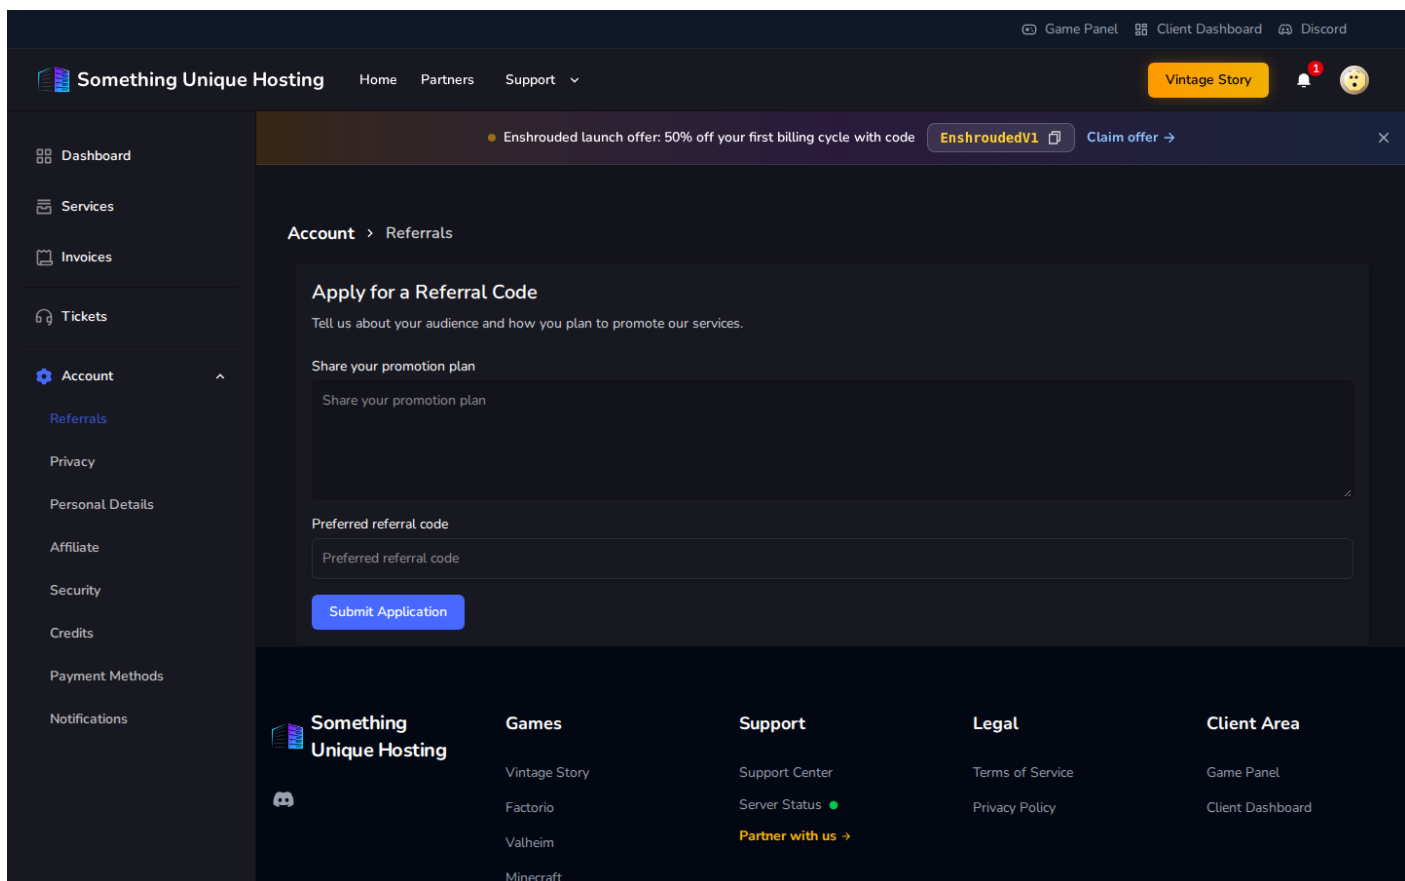

Content creators, modders and community admins can earn commission by recommending us. Full details are on our [Partners page](#).

First sale	65% of a new customer's first invoice
Renewals	5% of every renewal, for as long as their server stays online
Your audience	gets a discount with your code
Payout	PayPal, or account credit, from \$100

Commission is based on what the customer actually pays after discounts. Only **new customers** count, and **Budget Series** servers aren't eligible.

Applying

1. Go to **Account → Referrals**.
2. Under **Share your promotion plan**, tell us about your audience and how you'll promote us.
3. Optionally choose a **Preferred referral code**.
4. Click **Submit Application**.

We review applications by hand, usually within 48 hours, and email you the result. If you're declined, you can apply again after 7 days.

Sharing your code

Once approved, the **Referrals** page shows your code, your referral link, and a live dashboard of clicks and sales. Your link works for **30 days**: if someone clicks it and orders within 30 days, the sale is yours. Customers can also type your code at checkout.

Getting paid

- Commission becomes available **30 days** after it's earned.
- Click **Request Withdrawal** once you have at least **\$100** available. Payouts are sent by **PayPal**.
- Or click **Claim Account Credit** to turn earnings into [account credit](#) instantly, up to the normal credit limit.

If a referred customer is refunded, the unpaid commission for that payment is cancelled.
